

# *Integratus: Clinical Reflections Template*

---

## **Introduction**

Describe emergent clinical topic/problem

- *What is a common/unique clinical problem that you see in your practice as a \_\_\_\_\_?*

Contextualize within extant literature

- *How do you conceptualize this problem and its treatment?*
- *What are 2–3 examples of how extant literature addresses this issue?*
- *As a clinician integrating faith in practice, what resources support you in this?*

Identify how current literature is inadequate to provide helpful guidance

- *How is the current literature inadequate?*
- *What clinical or client questions have you encountered that could not be easily answered by you, the literature, and/or faith resources?*

## **Illustrative Case Example(s) of Clinical Topic/Problem**

Provide 1–3 examples from a case or cases that illustrate the topic/problem. Follow HIPAA guidelines to de-identify the case.

## **Clinical Guidance**

- *How do you recommend practitioners address this topic/problem in clinical practice?*
- *What advice do you have for young practitioners, or those new to working with this population or issue?*
- *What hypotheses may be tested in future research and practice?*

## **References**

Provide at least 5 references in APA style, 2 of which must be peer-reviewed literature.
